

Underfloor Heating Quotation Questionnaire

Optimum Underfloor Heating Ltd. offers a completely free design and quotation service with comprehensive technical back up. All design work is indemnified and guaranteed without limit of time. We can also provide you with a quotation for a ground source heat pump. To take advantage of this service, please complete this questionnaire and return with a full set of **scale plans, sections and elevations**. If you do not have sections or elevations, please supply information regarding the height of all windows, doors and ceilings.
